

Customer Service Terms - Review Draft

Important status

This document is an operational draft, not the final binding agreement. Israeli counsel, an accountant and an insurance adviser must approve it, complete the legal entity details and assign an effective date before paid dispatch.

1. The service relationship

The customer contracts with and pays CleanFixHarish. CleanFixHarish defines the written scope, price, schedule, communication, quality review and remediation path. An approved independent service partner may perform the assignment under CleanFixHarish management.

2. Quote and scope

A quote is valid only for its stated scope, assumptions, exclusions, address, schedule and expiry. Photos and descriptions assist scoping but do not disclose hidden conditions. Acceptance records the exact version, language, price and applicable VAT treatment.

3. Payment and cancellation

Payment or a proportionate deposit is made only to CleanFixHarish through an approved method. Cancellation rights, fees, refunds and online cancellation methods will follow applicable Israeli consumer law and the disclosure shown before acceptance.

4. Access and safety

The customer provides safe, lawful and timely access, identifies known hazards and protects valuables, children and animals. CleanFixHarish may stop or refuse unsafe, regulated, materially different or inaccessible work.

5. Changes

No verbal extra is binding. A material difference pauses affected work until CleanFixHarish issues a written change order showing revised scope, price, schedule and provider payout, and the required parties approve it.

6. Provider contact

The assigned person is safely identified through a CleanFixHarish arrival card. Booking, changes, payment, complaints and future requests remain through CleanFixHarish. Direct private payment or solicitation is outside CleanFixHarish coordination and remediation coverage.

7. Quality and remediation

A customer should report a specific issue with supporting information within the displayed review period. CleanFixHarish compares the issue with the agreed scope and evidence. A covered remedy may be rework, a replacement provider, credit or proportional refund. New work, hidden defects, customer-supplied material failure, later damage and normal wear are excluded unless expressly accepted.

8. Regulated work

Regulated work is offered only after the relevant service and assigned professional pass the applicable licence, insurance and scope gates. The applicable licence information will be disclosed where required.

9. Privacy

Home photos, address, communications and job evidence are handled under the CleanFixHarish Privacy Notice and are shared with an assigned provider only as necessary to perform the job.

Customer Service Terms - Review Draft

10. Legal completion required

Counsel must add the legal entity name and number, address, governing law and venue, liability and insurance language, statutory cancellation text, accessibility method, notices and any mandatory Hebrew precedence clause.
